

SUMMIT MOUNTAIN

COLLECTION

Engineered hardwood is a versatile alternative to solid hardwood. Unlike solid hardwood, which is one piece of wood milled from a tree, engineered wood flooring is actually made of several wood plies (layers) that are fused together under heat and pressure. Engineered hardwood flooring is real wood flooring, but is more stable than solid wood. Engineered wood flooring is less susceptible to shrinking and expanding with changes in temperatures and humidity while the multiple wood layers in engineered hardwood make it very durable.

Warranty: 30-Year Residential and 3-Year Commercial Warranty when installed and maintained in accordance with Bel-Air recommended installation and maintenance Instructions.

WEAR LAYER
3mm.

Package / Shipping Information:

Carton (Box): 23.68 (Ft 2./Box) | Length: 88" | Width: 10.5" | Height: 2" | Weight: 43.5 Lbs.

Pallet: 76 (Boxes/Pallet) | 1799.68 (Ft 2./Pallet) | Length: 88" | Width: 42" | Height: 44" | Weight: 3356 Lbs.

FloorScore® Certification

FloorScore® is the most recognized indoor air quality certification standard for hard surface flooring materials, adhesives, and underlayment. Developed by SCS with the Resilient Floor Covering Institute (RFCI). This program tests and certifies hard surface flooring and the materials they're made with to ensure they are in compliance with stringent indoor air quality emissions. FloorScore® Certificates available At: www.belairwoodfloor.com

Recommended Underlayment:

- **Bel-Air ¼" Cork Sheet** – Impact & Sound Reduction - 300 (Ft²./Box)
- **Bel Air ½" Cork Sheet** – Impact & Sound Reduction - 150 (Ft²./Box)
- **Quitesound Rubber** – Impact & Sound Reduction – Available (3"-12")

Recommended Adhesives:

- **Bel-Air MCU-60** – Wood Flooring Adhesive
- **Bel-Air MSP-35** - 5-In-1 System & Adhesive
(For Concrete & Moisture Control Applications)

Installation & Maintenance Information:
